

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Invesco Global Thematic Innovation Equity Fund (the "Fund")

### A sub-fund of Invesco Funds (the "Umbrella Fund")

### Class Z accumulation - EUR (ISIN: LU2242765241) (the "Share Class")

The Fund is managed by Invesco Management S.A., part of the Invesco Group.

#### Objectives and Investment Policy

- The objective of the Fund is to achieve long-term capital growth integrating a thematic approach.
- The Fund intends to invest primarily in shares of companies worldwide (including emerging markets), which meets the Fund's thematic selection criteria, with a focus on innovation across a broad range of themes addressing mega trends linked to demographic, technology and environmental changes.
- The Fund is managed using "quantitative methods". "Quantitative methods" are defined as mathematical, logical and statistical techniques used for stock selection purposes.
- A universe of key themes addressing innovation related to mega trends is identified using Natural Language Processing (NLP) algorithms on multiple data sources.
- NPL is a field of artificial intelligence which deals with the interaction between computers and humans with the aim to read, decipher and understand the human language in a manner that is valuable for the portfolio construction.
- The Fund is actively managed and is not constrained by its benchmark, the MSCI All Country World Index, which is used for comparison purposes. However, the majority of the Fund's holdings are likely to be components of the benchmark. As an actively managed fund, this overlap will change and this statement may be updated from time to time.
- The Fund has broad discretion over portfolio construction and therefore securities, weightings and risk characteristics will differ. As a result, it is expected that over time the risk return characteristics of the Fund may diverge materially to the benchmark.
- Please refer to the Past Performance section below where a benchmark will be displayed if relevant.
- You can buy and sell shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.

#### Risk and Reward Profile

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

#### Other Risks

- The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- Shares of companies are generally considered high risk investments and may result in fluctuations in the value of the Fund due to external factors.
- Return on your investment may be adversely affected by variations in exchange rates.
- The Fund may use Stock Connect to access China A Shares traded in Mainland China. This may result in additional liquidity risk and operational risks including settlement and default risks, regulatory risk and system failure risk.
- The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of its investments or reduce the costs of investing, although this may not be achieved. The use of derivatives transactions may expose the Fund to counterparty risks that may result in losses to the Fund associated with the bankruptcy or insolvency of a counterparty.
- This Share Class is denominated in a different currency than the base currency of the Fund and is not intended to be hedged. Therefore, return on your investment may be adversely affected by variations in exchange rates between the two currencies.
- A more detailed description of risk factors that apply to this Fund is set out in Section 8 of the Prospectus.
