Invesco Global Targeted Returns Plus Fund (the "Fund") A sub-fund of Invesco Funds (the "Umbrella Fund") Class I annual distribution - AUD (ISIN: LU1814059611) (the "Share Class")

The Fund is managed by Invesco Management S.A., part of the Invesco Group.

Objectives and Investment Policy

- The objective of the Fund is to achieve a positive total return in all market conditions over a rolling 3 year period and targets a gross return of 7.5 % per annum above the 3 months Bank Bill Swap Rate (or an equivalent reference rate).
- The Fund aims to achieve this objective with less than 75% of the volatility of global equities, over the same rolling 3 year period. There is no guarantee that the Fund will achieve a positive return or its volatility target.
- The Fund uses a broad range of investment ideas and techniques to gain exposure to a selection of assets across all economic sectors worldwide, such as shares of companies, debt instruments (issued by governments or companies), commodities, cash, and money market instruments.
- The Fund will not gain exposure to shares of companies or debt instruments issued by companies in the "Tobacco" industry, according to the Global Industry Classification Standard (GICS) (Code 302030) issued by S&P Dow Jones Indices and MSCI. It is possible that the Fund may have exposure to such companies where they form part of an index held by the Fund.
- To ensure a prudent spread of risk and a diversified portfolio, a minimum of 5 individual investment ideas from a minimum of 3 different asset types will be held in the Fund at all times.
- The Fund may invest in debt instruments which are in financial distress (distressed securities).
- The Fund may make significant use of derivatives (complex instruments) in order to (i) reduce the risk and/or generate additional capital or income and/or (ii) meet the Fund's investment objectives by generating varying amounts of leverage (i.e. where the Fund gains market exposure in excess of the net asset value of the Fund).
- The Fund is actively managed and is not constrained by its benchmark, the ASX Australian Bank Bill Short Term Rates 3 Month Mid Index + 7.5%, which is used for comparison purposes. As the benchmark is a proxy for a money market rate, the overlap is not applicable.
- Please refer to the Past Performance section below where a benchmark will be displayed if relevant.
- You can buy and sell shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be paid annually.

Risk and Reward Profile

- The Share Class is in risk category 5 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

- As a portion of the Fund may be exposed to less developed countries, you should be prepared to accept large fluctuations in the value of the Fund.
- Changes in interest rates will result in fluctuations in the value of the Fund.
- The Fund may invest in distressed securities which carry a significant risk of capital loss.
