**For more information on the features of the share classes, please refer to Section 4 of the Prospectus. Furthermore, kindly note that all share classes are not suitable for all investors and investors should ensure to comply with the restrictions applicable to the share classes as disclosed in the Prospectus.**

#### **Important Information**

For certain share classes, the Invesco Funds, SICAV (the "SICAV") may, at its discretion, pay distributions out of gross income or directly from capital, and/or pay fees and expenses from capital. Investors should note that this may amount to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of capital will result in an immediate reduction of the net asset value of the relevant share class. This will result in capital erosion and therefore constrain future capital growth for such share classes.

Investors should also note that where dividends are paid from capital, this may result in a higher dividend, which may lead to a higher income tax liability. The SICAV may pay dividends out of income or capital, and under such scenarios these dividends may be considered as income distributions or capital gains in the hands of investors depending on the local tax legislation in place. Please refer to Section 11 (Taxation) of the Prospectus for further details.

For the most up to date information and before any subscription in the share classes of the sub-funds is considered, please refer to the Key Investor Information Document (KIID), the Prospectus and the International Financial Data Services, 78 Sir John Rogerson's Quay, Dublin 2, Ireland, Telephone +353 1 439 8100, Fax +353 1 439 8400; or the Management Company, Invesco Management SA, 37A Avenue JF Kennedy, L-1855 Luxembourg; or by emailing [queries@dub.invesco.com](mailto:queries@dub.invesco.com) or on our website: [www.invesco.com](http://www.invesco.com).

The SICAV and Invesco Management SA reserve the right to make changes at any time to this document without notice.

None of the information contained in this document constitutes investment advice nor should it be construed as a recommendation. Investors should not base their investment decision on this material alone.

The below share classes aim to pay a dividend in the frequency outlined in the relevant share class name. Dividend is not guaranteed and may be paid out of its capital.

**Warning:** Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on the information in the table(s) above. Investors should read the relevant offering documents of the sub-fund for further details including the risk factors.

The basis of calculating the net distributable income: net distributable income for the month is the gross income less all expenses and withholding taxes accounted for in line with Luxembourg GAAP. It also accounts for equalisation, so as to prevent the dilution effect of subscriptions and redemptions during the month.
