

Invesco

Invesco Net Zero Global Investment Grade Corporate Bond Fund (the "Fund")

A sub-fund of Invesco Funds (the "Umbrella Fund")

Class I (GBP hedged) accumulation - GBP (ISIN: LU2478782381) (the "Share Class")

The Fund is managed by Invesco Management S.A., part of the Invesco Group.

Objectives and Investment Policy

- The Fund aims to contribute to the goal of achieving global net zero greenhouse gas emissions by 2050 or sooner. As part of achieving its objective the Fund intends to deliver income together with long-term capital growth.
- The Fund will invest primarily in high quality debt instruments issued by companies worldwide, which in the view of the investment manager, are in line with the requirements of a Net Zero investment strategy and meet the Fund's environmental, social and governance (ESG) criteria.
- A Net Zero strategy is a strategy that focuses on achieving alignment objectives to:
 - Decarbonise investment portfolios in a way that is consistent with achieving global net zero greenhouse gas (GHG) emissions by 2050.
 - Increase investment in the range of 'climate solutions' needed to meet that goal.
- To meet the Net Zero goal, the Fund will apply multi-faceted approach. The Fund will manage the reduction of the portfolio greenhouse gas emissions over the long term. This means that the Fund will invest in issuers that are already aligned to the decarbonisation pathway, as well as issuers which are on their way to alignment.
- The Fund will allocate a portion of the Fund to issuers and instruments linked to climate solution activities (including, but not limited to, alternative energy, electric/hybrid vehicles, energy efficiency, green buildings, pollution prevention and renewable power).
- As a result, the Fund will select issuers which are making consistent progress on aligning their business models to Net Zero.
- Screening will be employed to exclude companies and/or issuers that do not meet the Fund's criteria on a range of other environmental and social metrics, including but not limited to the principal adverse impacts required to be considered pursuant to the applicable EU regulation and the level of involvement in activities such as unconventional oil and gas.
- The Fund may invest in contingent convertibles.
- The Fund may make significant use of derivatives (complex instruments) in order to (i) reduce the risk and/or generate additional capital or income and/or (ii) meet the Fund's investment objectives by generating varying amounts of leverage (i.e. where the Fund gains market exposure in excess of the net asset value of the Fund).
- The Fund is actively managed and is not constrained by its benchmark, the Bloomberg Global Aggregate Corporate Index, which is used for comparison purposes.
- While the benchmark is not consistent with the ESG characteristics of the Fund, it is a suitable proxy for the wider investment universe and therefore it is likely that some of the issuers in the Fund are also components of the benchmark.
- The Fund has broad discretion over portfolio construction and therefore securities, weightings and risk characteristics will differ. As a result, it is expected that over time the risk return characteristics of the Fund may diverge materially to the benchmark.
- Please refer to the Past Performance section below where a benchmark will be displayed if relevant.
- The Fund has a sustainable investment as its objective as covered under Article 9 of the Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector.
- You can buy and sell shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be reinvested.

Risk and Reward Profile

- The Share Class is in risk category 4 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- The lack of common standards may result in different approaches to setting and achieving ESG objectives. In addition, the respect of the ESG criteria may cause the Fund to forego certain investment opportunities.
- The Fund may use Bond Connect to access Renminbi instruments traded in Mainland China. This may result in additional liquidity risk and operational risks including settlement and default risks, regulatory risk and system failure risk.
- Changes in interest rates will result in fluctuations in the value of the Fund.
- Debt instruments are exposed to credit risk which is the ability of the borrower to repay the interest and capital on the redemption date.
- It may be difficult for the Fund to buy or sell certain instruments in stressed market conditions. Consequently the price obtained when selling such instruments may be lower than under normal market conditions.
- The Fund may use derivatives (complex instruments) for investment purposes which may result in the Fund being significantly leveraged and may result in large fluctuations in the value of the Fund. The use of derivatives transactions may expose the Fund to counterparty risks that may result in losses to the Fund associated with the bankruptcy or insolvency of a counterparty.
- The Fund may invest in contingent convertible bonds which may result in significant risk of capital loss based on certain trigger events.
- As this Fund is invested in a particular sector, you should be prepared to accept greater fluctuations in the value of the Fund than for a fund with a broader investment mandate.
- This Share Class is denominated in a different currency than that of the base currency of the Fund and may be hedged to mitigate against the effect of exchange rate fluctuations between the two currencies. However, this may not be achieved.
- A more detailed description of risk factors that apply to this Fund is set out in Section 8 of the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Any charges shown above are the maximum that might be taken out of your money before it is invested.	
Charges taken from the Share Class over a year	
Ongoing charge	0.06%
Charges taken from the Share Class under certain specific conditions	
Performance fee	None

- Any entry charge shown is a maximum figure. Where charges are shown, in some cases you might pay less; you can find this out from your financial adviser or distributor.
- As the Share Class has been recently launched, the ongoing charges figure is estimated based on expected total of charges. This figure may vary from year to year. It excludes portfolio transaction costs except in the case of an entry or exit charge paid by the Fund when buying or selling shares/units in another fund.
- There is currently a discretionary cap on the ongoing charge of 0.06% in place. This discretionary cap may positively impact the performance of the Share Class.
- If you switch funds, you will pay a maximum switching charge of 1% on your new fund.
- For more information about charges please see Section 4, Section 9 and Appendix A of the Fund's Prospectus.

Past Performance

As this Share Class has no performance data for a complete calendar year, there is insufficient data to provide a useful indication of past performance.

- Fund launch date: 01 June 2022.
- Share Class launch date: 01 June 2022.
- The base currency of the Fund is USD.
- Past performance of the Share Class is calculated in GBP.
- Performance is calculated after deduction of ongoing charges, portfolio transactions costs and is inclusive of gross income reinvested. Any entry /exit charges shown are excluded from the calculation.
- Past performance is not a guide to future performance.

Practical Information

- Depository: The Bank of New York Mellon SA/NV, Luxembourg Branch.
- The Luxembourg tax regime may have an impact on your personal tax position and there may be tax implications in your country of residence and/or origin.
- Invesco Management S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.
- The Umbrella Fund is structured by having different sub-funds. The assets and liabilities of each sub-fund are segregated by Luxembourg Law. As a consequence the assets of the Fund will not be available to meet the liabilities of another sub-fund within the Umbrella Fund.
- You are entitled to switch from this Fund to another fund on request, subject to the payment of a switching charge. Please refer to Section 5 of the Prospectus for more information.
- More share classes may be available for this Fund. You can find more information on our website.
- You can check the latest price for the Share Class on our website and on Reuters, Bloomberg and Morningstar.
