What is this product?**Type**

The Fund is a sub-fund of Invesco Funds (the "Umbrella Fund"), an open-ended umbrella investment fund established under the laws of Luxembourg and harmonised under the EU Council Directive 2009/65/EC relating to Undertakings for Collective Investment in Transferable Securities (UCITS).

Term

The Fund does not have a maturity date and may only be terminated in accordance with the terms set out in the Prospectus.

Objectives

- The objective of the Fund is to achieve long-term capital growth integrating a thematic approach.
- The Fund intends to invest primarily in shares of companies worldwide (including emerging markets), which meets the Fund's thematic selection criteria, with a focus on innovation across a broad range of themes addressing mega trends linked to demographic, technology and environmental changes.
- The Fund is managed using "quantitative methods". "Quantitative methods" are defined as mathematical, logical and statistical techniques used for stock selection purposes.
- A universe of key themes addressing innovation related to mega trends is identified using Natural Language Processing (NLP) algorithms on multiple data sources.
- NLP is a field of artificial intelligence which deals with the interaction between computers and humans with the aim to read, decipher and understand the human language in a manner that is valuable for the portfolio construction.
- The Fund may use derivatives (complex instruments) to manage the Fund more efficiently, with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Fund is actively managed and is not constrained by its benchmark, the MSCI All Country World Index, which is used for comparison purposes. However, the majority of the Fund's holdings are likely to be components of the benchmark. As an actively managed fund, this overlap will change and this statement may be updated from time to time.
- The Fund has broad discretion over portfolio construction and therefore securities, weightings and risk characteristics will differ. As a result, it is expected that over time the risk return characteristics of the Fund may diverge materially to the benchmark.
- You can sell shares in the Fund on any Dealing Day (as defined in the Prospectus). You may not buy or switch into the share class as it has been closed to additional investments.
- Any income from your investment will be reinvested.

Intended Retail Investor

The Fund is intended for investors aiming for long term capital growth, who may not have specific financial expertise but are able to make an informed investment decision based on this document and the Prospectus, and have a risk appetite consistent with the risk indicator displayed below and understand that there is no capital guarantee or protection (100% of capital is at risk).

Practical Information

Depository: The Bank of New York Mellon SA/NV, Luxembourg Branch. There may be tax implications in your country of residence and/or origin. Invesco Management S.A. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus. The Prospectus is available in English, French, Spanish, Italian and German and the reports in English and German. The Prospectus and the reports are prepared for the entire Umbrella Fund.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the PRIIPs manufacturer to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency from your local currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks such as Stock Connect and Derivatives risks may impact the Fund. Please refer to the Prospectus for more details.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between August 2021 and July 2023.

The moderate scenario occurred for an investment in the benchmark between April 2014 and April 2019.

The favourable scenario occurred for an investment in the benchmark between June 2016 and June 2021.

Recommended holding period: 5 years

Example Investment: USD 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if Invesco Management S.A. is unable to pay out?

The assets of the Fund are segregated from those of Invesco Management S.A. In addition, The Bank of New York Mellon SA/NV, Luxembourg Branch, as the depositary of Invesco Funds (the "Depositary"), is responsible for the safekeeping of the assets of the Fund. To that effect, if Invesco Management S.A. defaults, there will be no direct financial impact on the Fund. In addition, the Fund's assets shall be segregated from the Depositary's assets, which limits the risk for the Fund suffering some loss in case of default of the Depositary. As a shareholder in the Fund, there is no compensation or guarantee scheme in place.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	627 USD	1,612 USD
Annual cost impact (*)	6.3%	2.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.3% before costs and 5.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Not exceeding 5 % of the amount you pay when entering this investment. The person selling you the product will inform you of the actual charge.	Up to 500 USD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 USD
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	0.90% of the value of your investment per year. This is an estimate based on actual costs over the last year. *	90 USD
Transaction costs	0.37% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	37 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 USD

* While the above is not capped, a discretionary cap on multiple components of the total costs is maintained. This discretionary cap may positively impact the performance of the Share Class.

If you switch funds, you will pay a maximum switching charge of 1% on your new fund.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

We have selected 5 years as the Fund invests for the long term.

You can sell your shares in the Fund on any Dealing Day as defined in the Prospectus.

If you sell some or all of your investment before 5 years the Fund will be less likely to achieve its objectives, however, you will not incur any additional costs by doing so.

How can I complain?

If you wish to make a complaint about the Fund, Invesco Management S.A. or any person advising or selling the Fund, you should write to The Bank of New York SA/NV, Luxembourg Branch, BP 648, L2016 Luxembourg or Invesco Management S.A., at 37a Avenue J.F. Kennedy, L-1855, Luxembourg, or send an e-mail to queries@invesco.com.

In the event that you are not satisfied with our response to your complaint you can refer the matter to the Luxembourg Supervisory Authority by writing to the Commission de Surveillance du Secteur Financier (CSSF) at 283 route d'Arlon, L-2991, Luxembourg, by email at reclamation@cssf.lu, or by any other means accepted by the CSSF.
