

Change of fixed distribution rates for Monthly Distribution- 1 Share classes from record date 31 May 2021

April 2021

As per the prospectus of Invesco Funds (the "SICAV"), the Monthly Distribution- 1 Share classes intend to pay a stable distribution rate. The distribution rate refers to a distribution payment in the form of a pre-determined amount per share per month, regardless of the actual income earned in that month.

The distribution rate of the Monthly Distribution- 1 Share classes is reviewed on at least a semi-annual basis based on market conditions.

The SICAV has completed a review of the Monthly Distribution- 1 Share classes. As a result of this review the SICAV has changed the fixed distribution rates as follows:

The new fixed monthly distribution rates will become effective from record date 31 May 2021.

The generation of income has a higher priority than capital growth in the context of the Monthly Distribution- 1 Share classes. The SICAV may, at its discretion pay a portion of the dividends out of gross income and out of capital. With respect to hedged Monthly Distribution- 1 Share classes, the SICAV may take into account the return driven by the interest rate differential arising from the currency hedging of such share classes in determining the distribution rate to be paid (which constitutes a distribution from capital).

The distributions will be paid in monthly instalments but are not guaranteed.

It is important to note that the annualised dividend pay-out of the share classes does not represent the annualised income generating from the underlying assets of the fund. It is also important to understand that a positive distribution rate does not imply a positive total return.
